REFERENCE LETTER
FOR
GERTRUDE EDTSTADTLER-PIETSCH
Dr. med. vet. Mag. phil.

To whom it may concern

IDT Biologika is an innovative privately-held company with more than 90 years of experience in research, development, manufacture and distribution of biologics for the global protection of human and animal health, with the expertise and capacity to handle large-scale campaign production of human and veterinary vaccines and biopharmaceuticals.

We have known Dr. Edtstadtler-Pietsch for more than 1,5 years now where she has provided translation (probably more than 40,000 words till now) and interpreting services to us for the language combinations English-German, Spanish-German, German-English, German-Spanish.

Authentic testimonial from the IDT Key Account Manager Dr. Sergio Barrabes from Spain: "We confirm that Gertrude Edtstadtler-Pietsch participated in the realisation of 7 different seminars (veterinary medicine) in different cities in Spain in 2014. The seminars were very technical, took about 3 hours each and were imparted by two different speakers, followed by a discussion. Dr. Edtstadtler-Pietsch was able to translate without break both speeches, with very fluent and technical vocabulary. In addition the organization of the seminars required to travel daily for two weeks, demanding a high flexibility and adaptation skills to different locations and audience. The result was very satisfactory and the adaptation to our needs and team was excellent."

As she has an academic career of both translation/interpretation and veterinary medicine, her expertise always was and still is of tremendous help for us, as she fully understands the medical background and the target of web contents, brochures and

conferences, which is to present our products and their scientific background in the best of all ways to our target population (veterinarians, livestock producers, etc.).

The quality of her services has always been excellent and deadlines were always strictly met, so that we can only recommend her to other companies or agencies.

Yours sincerely,
