

REFERENCE LETTER

concerning

Dr. med. vet. Mag. phil **GERTRUDE EDTSTADTLER-PIETSCH**

To whom it may concern

ROYAL CANIN is a global leader in pet health nutrition, offering the most precise nutritional solution for cats' and dogs' health nutrition needs, by building on constantly deepened scientific knowledge and ROYAL CANIN's roots in the feline and canine professional networks.

For our offices in Austria, Dr. Edtstadtler-Pietsch has been rendering linguistic services for approx. 20 years, primarily written translations (English-German) of tremendous volume (uncountable number of words, definitely more than 100,000) including the translation of books, brochures, etc.

Her professional expertise has always been outstanding, as she is an excellent translator delivering texts that can be printed/published right away and need no proofreading. In addition, she is doctor of veterinary medicine and perfectly understands medical and scientific issues. With her translations, she has always perfectly transported medical, nutritional, scientific and marketing contents into German, with due consideration of the target reader (pet owners, vets, researchers, etc.). In addition, she is absolutely reliable, delivering the translations punctually, even large volumes like books.

We are very happy to work with Dr. Edtstadtler-Pietsch and can only recommend her to other companies.

Yours sincerely,

A handwritten signature in blue ink, appearing to read "Wolfgang Kren", with a horizontal line extending to the right.

Ing. Wolfgang Kren
Managing Director
ROYAL CANIN Österreich GmbH
